**Mission statement:**

Preventive medicine is there to encouraged patients to take better care of their health. I strived to optimize my patient's health with acupuncture and Chinese Medicine, which are both natural ways to prevent a disease from occurring and getting worse. I believe preventative care will not only serve patients on being healthy, but as a tool to educate them on a better understanding of a healthier life.

**Vision statement:**

Holistic Health in the near future will just be as powerful as Western Medicine. Together, they will both be frontiers of new medical discoveries that will benefit the world.

**Professional Profile:**
